## **MARKETING**

Use these best practices to make your next technology showcase a blockbuster success .....	1
Temple uses LinkedIn to help get promising IP into start-up mode .....	5
Individual research labs developing web sites with a focus on attracting industry .....	8
Coordinated PR effort lands university TTOs on the front page .....	10
UVA's "Product Pipeline" illustrates new metrics for evaluating discoveries .....	15
Respond quickly and positively when your TTO gets skewered by media .....	17
Hopkins speed dating event helps faculty, entrepreneurs make perfect matches .....	21
New venture employs web-based marketing to secure early-stage funding .....	24
IBM data analytics help NC State quickly unearth potential licensees .....	26
Pocket-sized 'coaching card' helps inventors when pitching industry .....	31
Hopkins app broadens TTO's reach through PDAs, iPhones .....	34

## **CONTRACTING AND LICENSING**

U Minn's sponsored research agreement model is a hit with corporations .....	39
Unique licensing model creates win-win for Cornell and New York apple growers .....	43
Careful drafting can head off the perils of sublicensing .....	45
Ready-to-sign licensing boosts deal flow, saves time, and gets dormant IP off the shelf .....	48
'Easy access IP' continues to gain ground in efforts to boost economic impact .....	51
Win your negotiation: How to research your opponent before the battle .....	56
U of Ulster's evaluation license allows a trial period to "test drive" technologies .....	58
TTOs often walk a fine line when negotiating rights to improvements .....	61
Rights to improvements may open Pandora's box of troubles .....	65
New pact brings "express" concept to sponsored research agreements .....	67
Setting minimum royalties more art than science .....	69
Express licenses: Craft realistic standards that fit your mission, needs .....	73
Ready-to-sign licensing boosts efficiency and deal flow .....	76
In unique deal, USC auctions an exclusive license and retains patent .....	79
Use a Negotiating Scorecard to guide your assessment of deal terms .....	81
'Re-engineering' contracting process speeds deals for Drexel TTO .....	83
Negotiation expert shares tips on how to strike a better deal .....	86

## **START-UPS**

Universities inject scientific process into the business of start-up creation .....	91
The lean start-up: Will it work for your TTO? .....	95
Use this "coachability checklist" to assess faculty's readiness for start-up role .....	98
Address the challenge of finding start-up CEOs by focusing on women .....	101
Should your start-ups be carrying IP infringement insurance? .....	104
'Nail it and scale it' approach underlies new collaboration at Ohio State .....	107
"Fast Fifteen" gives start-ups at NC State greater visibility and targeted support .....	110
U-Minn nurtures early-stage start-ups with Internal Business Units .....	113
10 "don'ts" university start-ups must avoid to stay off the scrap heap .....	116
Pre-incubation programs enhance start-up successes, weed out likely losers .....	121
Follow these steps to write a start-up business plan .....	123
Start-up CEOs don't always work out, so plan accordingly .....	127

New Clarkson U program swaps tuition assistance for equity in student start-ups .....	131
Nurture more start-ups, win community support with new “distributed incubation” model .....	134

## **FUNDING**

USF gap funding program uses convertible debt structure, seeks rapid ROI .....	139
FSU tries arm’s-length entrepreneurship to boost SBIR/STTR funding .....	141
Venture philanthropy could ease tech transfer funding crunch .....	144
U Rochester becomes crowdfunding trailblazer as two technologies ready for market .....	151
Profit/non-profit partners to carry biotech innovations across valley of death .....	154
University-VC partnerships open new roads for start-ups .....	158
How to set up a proof of concept fund: The dos and don’ts .....	160
Program offers funding for interdisciplinary projects, no questions asked .....	163
Unique model pools angel funds to invest in university’s research .....	165
U of Michigan taps endowment for start-up funding .....	168
Osage fund’s ‘co-investment’ concept wins support from top universities .....	171
Fundraising campaign seeks to transform UNC’s innovation ecosystem .....	173
Consider venture debt a funding alternative for later-stage start-ups .....	176

## **FACULTY OUTREACH AND EDUCATION**

In unique patent cost-sharing pilot, USF invites faculty to kick in funds .....	181
Site miners dig out IP gems and harvest new tech transfer opportunities .....	184
Purdue launches website focused on faculty outreach, support and engagement .....	189
Statewide researcher retreat educates faculty, encourages university start-ups .....	192
U-Michigan alum fills “Innovation Evangelist” role on campus .....	195
U Iowa legal battle with prof underscores need for clarity, communication .....	197
Purdue’s OTC creates new service to help app developers get to market .....	200
Keep innovative ideas coming with a well-crafted inventor recognition effort .....	203
Scouting programs corral more quality disclosures .....	206
WARF grad students become tech transfer ambassadors .....	212

## **PARTNERSHIPS**

Jumpstart industry-sponsored research by reducing IP-related barriers .....	219
Co-development model aims to attract more industry partnerships .....	224
Universities tapping military resources to enhance commercialization efforts .....	226
Small- to medium-sized TTOs collaborate for added commercialization heft .....	230
TTO’s partnership model set to ramp up medical device commercialization .....	233
Ohio’s statewide master agreement with P&G smooths path to licenses .....	236

## **OPERATIONS AND STAFFING**

Diligence practices key to capturing misreported, underreported royalties .....	241
Model for right-sizing TTO staff generates cost savings .....	245
‘National Advisory Board’ guidance spurs important initiatives for U Michigan .....	248
Reporting templates generate higher licensee compliance, stronger data .....	250
Need an issued patent fast? Go to Canada first, then turn onto the PPH .....	271
U.Va. streamlines invention disclosure form as part of plan to increase volume .....	274
Want better interns for your TTO? Offer structured apprenticeships .....	277
How to find and nurture the best staff for your TTO .....	283
TTOs find cloud-based MIS solutions alluring, but beware of pitfalls .....	287
Student-run consulting group offers more than traditional interns for Washington U’s OTM .....	291
Measure transactional efficiency to get more bang for your budget bucks .....	294
Achieving transactional efficiency doesn’t have to mean losing small projects .....	298
UVA restructuring based on longer-term view of IP commercialization .....	301
Structured intern program helps eliminate backlog of invention disclosures .....	305
Vanderbilt TTO undergoes overhaul, expansion in bid to ramp up results .....	309

Fixed fee deals with U.S. law firms, foreign affiliates bring huge savings for BYU .....	311
Peer review process nets UMN outside validation and a roadmap for the future .....	314
Industry metrics underpin new framework for benchmarking tech transfer .....	317
Innovation scorecard helps TTOs to identify strengths, weaknesses .....	322
Consider offshoring to improve staff efficiency, expand your business reach .....	327
'Health index' could help TTOs measure their impact .....	332
Redefine TTO metrics to improve progress toward institutional goals .....	337
Use this checklist to standardize the royalty audit process .....	342

## **POLICIES AND PROCEDURES**

In policy shift, tech transfer activity will factor into promotion and tenure at U of Arizona .....	349
In bid to get IP off the shelf, Purdue policy deems "automatic reconveyance" after six months .....	353
University hopes new faculty-friendly leave policy will spur start-ups .....	355
Stanford's "No-MTA" policy cuts burden for staff and eases delays for researchers .....	359
U Manitoba unveils liberal IP policy in bid to speed negotiations, attract companies .....	362
New Maryland tenure policy part of statewide push to promote commercialization .....	365
Lock down your procedures for paying patent maintenance fees .....	370
Conflict of interest program aims to allay faculty fears, encourage start-ups .....	374
IP policy shifts at major universities get rave reviews from corporate partners .....	376
Take quick action when licensees don't meet obligations .....	380
INL develops streamlined due diligence process for screening potential licensees .....	384
Universities seek broader approaches to student IP rights .....	387
RPI encourages undergrad innovation with simplified license agreement .....	390

## **PORTFOLIO MANAGEMENT, ASSESSMENT, AND TRIAGE**

Emory creates drug venture arm and a new model for de-risking pharma assets .....	397
Tough love sometimes best for non-performing patents .....	400
TTO advisory panels: Best practices to optimize success .....	403
One-time expert advisory panels can slash IP backlogs .....	409
"Roadmap" helps educate faculty inventors and supports rigorous IP review .....	412
Emory's multi-stage triage process ensures all technologies get equal consideration .....	415
TTO turns to outside firm to auction off older patents .....	419
U Alabama student triage teams perform initial technology screens .....	421
Decision matrix offers more objective basis for go/no-go decisions .....	426
Partners HealthCare takes invention triage to a new level .....	431
Tired of being a reactive TTO? Learn how Oregon State is switching gears .....	435
Boise State uses 'Innovation Teams' to assess IP market potential .....	440

## **PATENTS AND LEGAL ISSUES**

'Quick and dirty' provisionals can come back to haunt your TTO under the AIA .....	447
Carnegie Mellon plays hardball with patent infringement and wins big .....	451
ITC a potentially useful option to address patent infringement .....	455
TTO patent strategies run the gamut, from 'singles' to swinging for the fences .....	458
TTOs have a role to play in handling of litigation hold memoranda .....	463
U Hawaii OTT realizes significant savings in legal expenses .....	466
Keep the lid on patent prosecution costs .....	468

## **ECONOMIC DEVELOPMENT**

'Ecosystem' is the magic word in economic development strategy .....	473
Spin-ins: Another way to boost revenues and support local economic development .....	476
"Start-up in a Box" program gets companies quickly off the ground .....	479
TTOs put economic development high on priority list .....	483
